

# Ayan Murad

Senior Software Engineer

## Profile

Experienced MERN Stack Developer with 5.5 years in the industry and high-level proficiency in the following programs: Java, Javascript, React Native, React-JS, Swift, Flutter and Node-JS, seeks to establish a career as the Full Stack Developer for a reputable organization. I am very familiar and experienced with Web & Mobile Application Architecture and have worked with a good number of successful development teams.

## Work Experience

WEB & Mobile App Lead at Musketeers Tech - Remote, Lahore  
Sep 2022 - Present

- Managing a team of 5 web developers working on a product, as well as a team of 2 mobile application developers working on project-based apps
- Overseeing deployment, code review, and code merging processes for both web and mobile teams
- Ensuring that projects are delivered on time by conducting timeline meetings and tracking progress
- Taking responsibility for bug fixing and ensuring that all issues are resolved in a timely manner
- Providing leadership and guidance to team members, helping them to develop their skills and achieve their professional goals

---

### Project Details:

I led the development of the Stickball application, which is a multi-functional platform designed to provide students with comprehensive guidance on technologies, banking, transactions, income, metaverse, AI videos, podcasts, and e-commerce.

## Skills

Highly-knowledgeable in React Native

Knowledgeable In React-JS

Great ability to work with a team

Communication skills

Knowledgeable In Swift

Knowledgeable about mobile responsive design

Excellent problem-solving skills

Knowledgeable In Node-JS

Flutter

## Languages

Urdu

and more.

In the medical application, I was responsible for developing features such as patient management, medical history, and appointment booking. For the recipe application, I developed features such as recipe sharing, meal planning, and nutritional information.

In the banking application, I developed features such as account management, money transfer, and bill payments. Throughout these projects, I leveraged my skills in software engineering, including proficiency in programming languages, software development methodologies, and database management.

Overall, I contributed to the development of several project-based applications, each with their unique features and functionalities. These projects provided me with valuable experience in developing software applications for different industries, improving my skills as a software engineer.
